THE CARL HAGENBECK-GREAT WALLACE CIRCUS

In connection with the Nebraska State Fair, September 3-7--Five Afternoon and Four Evening Performances.

Realizing the necessity of good clean amusements along with the other educational features of a great State Fair, the management of the Nebraska State Fair has searched high and low for everything new and good in the world of amusement and liberal education. It has taken the boldest step ever undertaken by any fair in securing the Carl Hagenbeck-Great Wallace Circus for the entire State Fair week. This circus is a consolidation of the "Famous Carl Hagenbeck Trained Animal Show and the Great Wallace Circus, and now ranks as the third largest circus in the world, with its three trains of twenty cars each.

You cannot afford to miss the chance of seeing the wild performing animals in the sixty-foot square steel arena, along with three other performing rings. All this in connection with the regular horse races for the same money. Presented twice daily in front of the amphitheatre without canvas. Make your arrangements to come on Monday or Tuesday that you may see the wonderful exhibits and new amusement features before the great crowds arrive later in the week.

Sioux City Journal, 29: Chief of Police A. L. Mathwig has purchased a stop watch and is now waging war on the motorists who venture to go faster through the town than the speed limit provides. The speed limit in South Sioux City is ten miles an hour. Thursday night he arrested O. B. Cade and J. W. Roe, both of Sioux City. Cade, he said, was racing another car through the main street of town and was going about thirty-five miles and hour. He was fined \$10 and costs. Rowe was fined \$15. Mr. Gray and Mr. Budke, in company with Tom Sullivan and W. F. Hickey, of Jackson, were examining the drainage ditch which runs through their farm lands when they struck a soft spot on the ridge and the machine turned turtle. The soft mud at the bottom of the ditch is said to have saved the life of Budke, as it required the united efforts of the other men to remove the machine from his body. The injured men were treated by Jackson physicians.
